Saturday: Peak Cavern 10am-4pm

I would like to say that it must be the most exciting weekend I've experienced after coming to Oxford. Actually at first I'm sort of nervous about this totally new activity. but the amazing world I saw in caves and nice friends I met during the trip make me firmly believe I make a correct decision to come to Peak caves Weekend.

The most unforgettable part was when we turned off our lights to experience total darkness and the sound of water. It can be scary ~~to~~ not being able to see anything.

Walking ~~Crawl~~ ~~creeping~~ in the deep water and crawling ~~in~~ though the tight and narrow space was tough for me. Thanks to my friends, they always gave me a hand when I was in difficulties and it felt awesome when ~~at~~ finally conquering various barriers and made a long distance in the cave

It is a really nice ~~caving~~ trip and I will come back again !!
